DETAILED ACTION

Receipt is acknowledged of an After Final reply to the previous Office Action, filed March 29, 2004. Amendments were made to the claims. Specifically, claims 18-20 were cancelled.

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Claim 17 is pending and under consideration in the instant application. Any rejection of record in the previous Office Action, mailed January 28, 2004, that is not addressed in this action has been withdrawn.

Interview Summary

As indicated in the attached interview summary, the rejection under 35 USC § 102(b) has been withdrawn in view of Applicant's argument that the amendment to the specification should be entered in the absence of a petition, thereby perfecting the claim to priority and obviating the rejection.

Response to Amendment

This application is in condition for allowance except for the following formal matters:

The specification contains sequences that are not contained in a sequence listing and are not identified with SEQ ID NOS. Specifically, on page 24, lines 5 and 9, there are amino acid sequences that must be brought into compliance with 37 CFR § 1.821-1.825.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Failure to respond completely to all of the formal issues will result in the issue of a Notice of Non-responsiveness.
